DCI/ICS 81-0127

2 November 1981

25X1 MEMORANDUM FOR:

[REDACTED]
Chairman, DCI Committee on Technology Transfer

25X1 FROM:

[REDACTED]
Director, Intelligence Community Staff

SUBJECT:

Loss of US Technology Through Third Countries
to the USSR

REFERENCE:

DDCI Note to D/ICS (attached)

1. In July 1981, the DDCI tasked the Critical Collection Problems Committee (CCPC) to conduct a study of collection problems associated with the loss of US technology to the USSR. This study was held in abeyance pending your study which was addressed by the NFIC on 14 October.

2. In view of the establishment of the new DCI Committee on Technology Transfer and the NFAC Technology Transfer Assessment Center, I do not believe a CCPC study is necessary at this time.

3. Be assured that as the DCI Committee on Technology Transfer identifies shortfalls in intelligence collection, the Chairmen, SIGINT and Human Resources Committees, are prepared to assist you in stating your requirements through established mechanisms.

25X1

Attachment:

DDCI Note to D/ICS

cc: Chairman, SIGINT Committee
Chairman, Human Resources Committee
Critical Intelligence Problems
Committee Secretariat
